Subject: POP Regulation: (EU) 2019/1021 and delegated regulations.

We confirm that:

- To our best knowledge, the articles we put on the market are in compliance with the POP Regulation EU 2019/1021 of 20 June 2019, including its subsequent amendments and all corresponding Delegated Regulations published at the date of this statement (last one: EU 2025/1482, published on 28 October 2025), as well as the Stockholm Convention on Persistent Organic Pollutants. They do not contain substances subject to prohibition listed in Annex I or restriction listed in Annex II. of the POP Regulation above the applicable concentration limits.
- We do not use POP substances in our manufacturing processes.

Amphenol Socapex does not independently conduct analytical testing for POP substances. This statement is based upon technical data from our supply chain which is believed to be reliable and accurate

The information provided is subject to change as additional experience and knowledge is gained. Amphenol Socapex will update this statement upon the discovery of any article containing a POP.

Please feel free to contact me if needed.

Best Regards
